You might be a little afraid that you've lost so much but the truth is that you haven't really lost much. It might be worth waiting for a new heat trial or a big hero battle to get a free 4-star version of the units before they are added to Grail's pool of heroic units. And my fifth team will most likely be !! Hector and 3 more armor units. After the armor does not matter too much, but watch to make all the flying teams, Flying Nino is a beast, and all the teams of the horses can be useful for some more difficult maps. You might be tempted by the new special events units, but here patience is a virtue as it will be displayed again on legendary banners at the end. Thank you for reading if you did. Have a nice day. In addition, this guide will teach you how to use the main Orbs missions/prologues better than you would if you were playing before the legendary banners. Just get your free convocation and save your balls. It could actually be seen as an advantage. But nobody does it because they want to make it challenging for you or something. It's a really fun game. "LMK if you don't have something important to add or if you think I'm wrong after everything that's based in opinion. He also plans their blessings. This is the most important thing to do if you are a F2P player. I don't know the dark element but the idea is to have 6 good teams based on the type of motion/element. If you are new of course you should make a new account.2. Pick Veronica and Bow li li e jvoun ad dessaltuo onos .Atinu eihccev el ettut azzatsabba . It's good to pick a legendary unit as the core of a team and make a team around them. They give you tons of things to do for free no stamina. Personally I put my aether pots at the FRONT so opponents can break them though because there's literally no downside to an enemy breaking your pots. If you just focus on your highest priorities you'll get +10s pretty quick. If you have a bunch of Hectors somehow you can get BETTER HECTORS if they're on the legendary banners (which they usually are). If you just snipe a few legendary banner characters you can get a +10 pretty darn fast.4. Do aether raids and pick a heroic grail character to upgradeHeroic grails are the new aether raid rewards. 3 armour units and a healer is in general the best team for story missions and stuff you can auto-battle (excluding limited turn battles), especially if they have distant counter or close counter. Also would like to mention that about 5 armour units that you can summon on legendary banners are S tier characters (also 3 of them are hector lmao). To me it's more important to get one REALLY good team but it depends on what you're trying to accomplish in the game.Most importantly have fun. You don't have to get the pots every time it's like 2 more aether if you get them. It's a good time to get into it. If you haven't tried it well, FEH is now in it's 3rd year and just keeps getting better as time goes on. Your orbs will be used so much better if you only summon on legendary banners as you will be getting ONLY the focus units and ONLY from the selection of legendary banner units. Aether raids are pretty simple. L!Hector (though you might rather use him for distant counter) or L!Y!Tiki (or both, or both on 2 separate teams) with all armours or a mixed team even for example.What I've done so far on the account I started for 2019 LAST WEEK is:Get Christmas Fae with rerolls and put distant counter on ovoun nu tratS.pets ni P2F erotatnec nu emoc 9102 len HEF eracuig emoc us adiuq amu occE .irla ilg eratuia rep Atinutroppp etrap ni .etnetrevid etrap ni "A enoizaripsiL.af inroig 2 ossuif oim lus P2F tnuocca ovoun nu otainini oh .erepas onossop lov id inucla saHEF "EVITITTEPMOC" a itinaipicnirp rep adiuq .osrocs onnu l olos ehena ebbertop is ehc aro HEF odnacoig opmet 'Aip odlom ererrocasr ?Aup iS .tnuocca ovoun nu noc aro orenetto ioup ivacoig odnauq sitarg imukaT otuva lah non eS .AROCNA OIRADNEGDEL RENNAB ROILGIM LI A WON THGIRSRADNEGDEL EREIDNAB US ENOIZACOVNOC OLOS .3.rol ni acinoreV onasu eduiq elled etrap rigggam al .Jaro rep(idnibleH .arolF .fflK .mrojF .Aras ardaugs atraug aim al .Jellets 4/3(ascedni tub olow id Atinu e onigammli dirH!YN .oniN gniylF .rIE .Aras ardaugs azret aim al .ereneg led asoclauQ .Atinu ertsov elled otser li erinu o irouf oiggarof e orol rep aredised is ehc olleuq etnemattase eraccif olos ?Aup is erdaugs id oiap nu acifinaip is eSorol id us iouv .Atiliba ilauq e iouv ihc eracifinaip .6.otlom .Aredeihcir non ellets 3 nu emoc avirra ehc Atinu'nu iuc ni onna ozzem acric etnemlibaborp .Aredeihcir azneirepse aim allen ellets 5/4 a Atinu'nU .hrryM!H e ailiceC!C .eaF!C .ikiTIY!L .Aras elapicnirp ardaugs aim al .Atiroirp id enidro ni omissoorp oiradneggel enoicisrts onu us onos ehc atlov ingo ailedroCIS akiriE!L .hrryM!H ikiTIY!L rep drah/ilamron itneve/hgolorp/airots noc erefs 412 avlaS.iore 021 acovE tsepmet nraigeaL!YN teG.otiutarg nomve nu ni dirH!YN erenetto e otanutrof teG.jecaip im am orevvad ibro 04 id ocerps(ffilK teG.idnibleH e .hrryM!H rep oiggarof onatnol erotatnoc rep rotceH!L ortla nu ,arolF toG.
