General discussion about all issues related to labradoodle - anything that does not otherwise cover by specific forums on the site. Wanadoodle Post: 4 Member: 17 Oct 2009, 08:42 Wanadoodle Post Å »03 Mar 2010, 13:34 Help please. We have a plant of Pampa on the back garden and just caught the puppy that tears it - managed to make it away and put the leaves and things suffuse in a basket bag - just worried in case it is poisonous I looked at some sites and does not seem terribly clear what is poisonous for dogs, I know about the foxgloves and I don't have them. Someone can tell me about Pampas and any other I might need to remove Thanks Katew Messages: 5522 Member: 21 May 2007, 21:52 Location: Cornwall Contact: Post by Katew Å »03 mar 2010, 14:47 I'm not aware of it. Pampas' grass is toxic to dogs; The main danger at the moment is the bulbs, the daffodils in particular.... Recently I started a thread with a connection to dangerous stuff for dogs, so we will go find it for you katherine jasperaaliceuk post: 687 combined: 04 Oct 2007, 08: 53 Post by Jasperaalicekuk Å »03 Mar 2010, 15:02 I have no idea whether Pampas' grass is poisonous or not, but it is a very sticky grass with sharp edges of the razor, so I don't think it would be a good idea to swallow it. Last year I took one from my garden, only because it had become a little too big and it also became the seat of a wasps nest, but every time I reduced it I would scratch and not only that it seemed to stick to the garments and A blade has always managed to constitute my pants leg inside!! Sue Check Out Milo's Tricks at Katew Messages: 5522 Member: 21 May 2007, 21:52 Location: Cornwall Contact: Post by Katew Å »03 Mar 2010, 17:38 I think there are so many dangers in the garden; We grow many exotic pointed plants and I always complete or turn the ends so that the eyes are not in danger ... we were rarely left rufus without supervision in the garden when it was a puppy while it was a terror to dig for the bulbs in reality he was a terror in the garden, all stop Katherine once established, the grass of Pampa vigorously growing pushes the other vegetation already living there. I point out, intasting water streams and wetlands and causing environmental chaos. And when dry, it can be a fire hazard. Pampas Grass Toxic for dogs?
